Communication Class Questions: 1. What a vaniety of explain 3. Why Java a nat pure object oranted programming land. 3. Why Java a nat pure object oranted programming land. 4. Why Java a nat pure object oranted programming land. 5. Difference blow Jok JRE & Jul. 6. What is a variety? And their types. 8. What is a class? 9. What are the date types in java? 10. What are the comportant features of Java? 11. What are the sumportant features of Java? 12. What are the sumportant features of Java? 13. What are the sump statements in java? 14. What are the stream blow a while loop and a do-wille bop? 15. Describe in brief about cops Concepts. 16. What are the Selection Statements in java? 17. Define for each loop? 19. List our the control statement in java? 19. What are Java keyword? 20. What is a termany Operator? 21. What are Java keyword? 22. What are Java keyword? 23. Define parkage in Java? 24. Why are the parkages used? 25. What is object Oriented programming. 26. Why we use odgs? 27. What are the difference blow class and object? 28. What is other difference blow class and object? 29. What is inheritance blow class and object?		The state of the s
Difference blue C and Java Difference blue Jok JRE & JUL! Difference blue Jok JRE & JUL! Difference blue Jok JRE & JUL! Next a a variable? And thain types what a an object? what are the data types in Java? what are primitive data types in Java? What are the Jump statements of Java? What are the Jump statements of Java? What a difference blue a while loop and a do-while bop? What are the Selection Statements in Java? What are the Control Statement in Java? What a tipe difference blue and at the Encurrent operator? What are Java kayword? What are Java kayword.		Communication Class QUESTIONS:
Difference by C and Jova Why Java & playorm Endependent? Why Java & nat pure object orented programming land. Difference by Jok JRE & JVH? Difference by Jok JRE & JVH? What & a varietle? And their types. What & an abject? What are the data types in Java? What are the important features of Java? What are the important features of Java? What are the jump statements in Java? What is the different blue a whole loop and a do-whole bop? What are the Selection Statements in Java? Describe in bruef about cops Concepts. What are face Selection Statements in Java? What is the difference blue that and at a horament operator? What is a termory operator? What are Java koyword? What are Java koyword? What are Java koyword? What are the package is Java? What are the packages used? What are the packages used? Why we use opps? What are the difference blue Class and object? What are the iman features of cops? What are the difference blue class and object? What are the difference blue class and object?	-	TALL DESCRIPTION OF THE PROPERTY OF THE PROPER
3) why Java a player object orented programming land. 3) why Jeva is not pure object orented programming land. 5) Difference blw Jok. JRE & JVH? 6) What a a varietle? And this types. 7) what a an object? 9) what are the data types in java? 10) what are primitive data types? 11) How many types of operators are available in Java? 12) What are the important features of Java? 13) What are the jump statements in java? 14) What are the jump statements in java? 15) Describe in bruef about cops Concepts. 16) What are the Selection Statements in java? 17) Define for each loop? 19) What are the contribio statement in java? 19) What is the difference blw++a and at & herement operator? 20) What are Java kayword? 21) What are Java kayword? 22) What are Java kayword? 23) Define parkage in Java? 24) What is object Drivented programming. 25) Why we use opps? 27) What are the man features of cops? 28) What is the difference blw Class and object? 29) What is other drivented programming.	0	Six Was Cand Java
5) Difference blue Jok JRE & JUNI? 6) What is a variable? And thin types. 8) what is a variable? And thin types. 8) what is an object? 9) what are the data types in fave? 10) what are primitive data types? 11) How many types of operators are available in Java? 12) What are the jump statements in java? 13) What are the jump statements in java? 14) What is the different blue a while loop and a do-while bop? 15) Describe in brief about cops Concepts. 16) What are the Selection Statements in java? 17) Define for each loop? 18) List ow the control statement in java? 19) What is the difference blue and at the increment operator? 20) What is the difference blue and at the increment operator? 21) What are Java kayword? 22) What are various access specifiers present in Java? 23) Define perhage in Java? 24) What is Object Oriented programming. 25) What is Object Oriented programming. 26) What is object Oriented programming. 27) What are the main features of cops? 28) What is object Oriented programming.	3)	The state of the s
5) Difference blu Jok. TRE & SVIII. 6) What is a variable? And this types. 7) what is a class? 9) what are the data types in fave? 10) what are primitive data types? 11) How many types of operators are available in Java? 12) What are the jump statements in java? 13) What are the jump statements in java? 14) What is the different blue a while loop and a do-while bop? 15) Describe in bruef about cops Concepts. 16) What are the Selection Statements in java? 17) Define for each loop? 18) What is the difference blueta and at the comment operator? 19) What is a fee difference blueta and at the comment operator? 20) What are various access specifiers present in Java? 21) What are parkage in Java? 22) What are parkage in Java? 23) Define parkage in Java? 24) Why we use other Oriented programming. 25) What is Object Oriented programming. 26) What is object Oriented programming. 27) What is object Oriented programming. 28) What is the difference blue class and object? 29) What is inheritance.	3)	Tava is not pure object oriented programming larg!
b) What is a variable? And this types? what is an object? what is an object? what are the data types in fave? what are primitive data types? What are the important features of Java? What are the jump statements in java? What are the jump statements in java? What is the different blue a while loop and a do-while bop? What are the Selection Statements in java? What are the control statement in java? What is the difference blueta and at + increment operator? What is a termory operator? What are Java keyword? What are Java keyword? What are various access specifiers present in Java? Why are the package in Java? Why we use opps? What is object Oriented programming. Why we use opps? What are the importance blue class and object? What is object Oriented programming. Why we use opps? What is otheritance blue class and object?	5	Tollerence blw JDK - JRE & JVM
what a a class? what a an object? what are the data types in fava? what are primitive data types? What are the important features of Java? What are the jump statements in java? What are the jump statements in java? What are the different blue a while loop and a do-while bops. What are the Solvetion Statements in java? What are the Solvetion Statements in java? What are the Control statements in java? What is the difference blueta and atticument operator? What are Java keyword? What are Java keyword? What are various access specifiers present in Java? Why are the packages used? Why we use opps? What is object Oriented programming. What are the man features of cops? What are the man features of cops?	5	What is a variable? And their types.
what a an object? what are the data types in java? what are the data types? How many types of operators are available in Java? What are the important features of Java? What are the jump statements in java? What is the different blue a while loop and a do-while bop? What are the Selection Statements in java? What are the Selection Statements in java? What is the difference bluetta and at the incurrent operator? What is a ternary operator? What are Java kayword? What are Java kayword? What are yarious access specifices present in Java? What is object Oriented programming Why one the packages used? What is object Oriented programming. What are the man features of cops? What are the difference blue class and object? What is other difference blue class and object?	3	what & a class?
what are the data types in Java? what are primitive data types? How many types of operators are available in Java? What are the important features of Java? What are the jump statements in java? What is the different blue a while loop and a do-while bop? What are the Selection Statements in java? What are the Selection Statements in java? What is the difference bluetta and att increment operator? What is the difference bluetta and att increment operator? What are Jova koyword? What are Jova koyword? What are various access specificors present in Java? What is object Driented programming. What is object Driented programming. What are the packages used? Why we use object Priented programming. What are the man features of cops? What are the difference blue class and object? What is the difference blue class and object?	a	what is an object?
what are primitive data types? How many types of operators are available in Java? What are the jump statements in java? What are the jump statements in java? What is the different blue a while loop and a do-while bop? Bescribe in brief about cops Concepts. What are the Selection Statements in java? What are the Contison statements in java? What is the difference bluetta and att increment operator? What is a termany operator? What are Java kayword? What are Java kayword? What are various access specifiers present in Java? Why are the packages used? Why we use opps? What are the pricented programming Why we use opps? What are the packages used? Why we use opps? What are the inference blue class and object?	9)	what are the data types in Java!
How many types of operators are available in sura? 12) What are the sump statements in java? 13) What are the sump statements in java? 14) What is the different blue a while loop and a do-while bop? 15) Describe in brief about cops Concepts. 16) What are the Selection Statements in java? 17) Define for each loop? 19) List out the control statement in java? 19) What is the difference blueta and att increment operator? 20) What is a termany operator? 21) What are Java kayword? 22) What are various access specifiers present in Java? 23) Define parkage in Java? 24) Why are the packages used? 25) What is object oriented programming. 26) Why we use oops? 27) What are the main features of cops? 28) What are the difference blue class and object? 29) What is inheritance blue class and object?	(0)	what are primitive data types?
What are the important features of sava? What are the jump statements in java? What is the different blue a while loop and a do-while bop? What are the selection Statements in java? What are the selection Statements in java? What is the difference bluetta and at the bovernent operator? What is a ternoxy operator? What are Java koyword? What are various access specifiors present in Java? Why are the packages used? Why are the packages used? Why we use opps? What are the main features of cops? What are the main features of cops? What is object Driented programming.	11)	How many types of operators are available in such
What are the jump statements in java? What a the different blue a while loop and a do-while bop? 15) Describe in bruef about cops Concepts. 16) What are the Selection Statements in java? 17) Define for each loop? 13) List out the control statement in java? 19) What is the difference bluetta and att increment operator? 20) What is a fermany operator? 21) What are Java kayword? 21) What are various access specifiers present in Java? 22) What are various access specifiers present in Java? 23) Define parkage in Java? 24) Why are the packages used? 25) What is object Driented programming. 26) Why we use object? 27) what are the main features of cops? 28) What is the difference blue class and object? 29) What is inheritance.	12)	What are the important features of Java?
14) What a the different by a work top some process of cops is present in brue of about cops concepts. 16) What are the Selection Statements in java? 17) Define for each loop? 18) List out the control statement in java? 19) What is the difference blutta and at + increment operator? 20) What is a termany operator? 21) What are Java keyword? 22) What are various access specificos present in Java? 23) Define parkage in Java? 24) Why are the packages used? 25) What is object Oriented programming. 26) Why we use object? 27) What are the main features of cops? 28) What is the difference blu class and object? 29) What is inheritance		111 + the statements on 1909/
15) Describe in brief about tops concepts. 16) What are the Selection Statements in java? 17) Define for each loop? 19) List out the control statement in java? 19) What is the difference blutta and att increment operator? 20) What is a termany operator? 21) What are Java kayword? 21) What are various access specificers present in Java? 23) Define parkage in Java? 24) Why are the parkages used? 25) What is object Driented programming. 26) Why we use oops? 27) What are the main features of oops? 28) What is the difference blue class and object? 29) What is inheritance	历	What is the different bles a write rap
16) What are the Selection Statements in Java? 17) Define for each loop? 18) List out the contino! Statement in java? 19) What is the difference blueta and att increment operator? 20) What is a ternoxy operator? 21) What are Java keyword? 21) What are various access specifiers present in Java? 23) Define parkage in Java? 24) Why are the packages used? 25) Why we use opps? 27) What is object Oriented programming. 28) Why we use opps? 29) What are the difference blue class and object? 29) What is the difference blue class and object?	15)	Describe in bruef about cops concepts
Define for each loop? 13) List out the control statement in java? 19) What is the difference blutta and at the increment operator? 20) What is a termory operator? 21) What are Java keyword? 21) What are various access specifiers present in Java? 23) Define parkage in Java? 24) Why are the packages used? 25) What is object oriented programming. 26) Why we use oops? 27) What are the main features of oops? 28) What is the difference blw class and object? 29) What is inheritance.	16)	What are the Selection Statements in Java?
19) List out the control statement in Java? 19) What is the difference blutta and att increment operator? 20) What is a ternary operator? 21) What are Java keyword? 21) What are various access specifiers present in Java? 23) Define parkage in Java? 24) Why are the packages used? 25) What is object Oriented programming. 26) Why we use copp? 27) What are the main features of cops? 28) What are the main features of cops? 29) What is inheritance blue class and object?	17)	Define for each loop?
19) What is the difference blutta and aff viorement operator? 20) What is a fermory operator? 21) What are Java keyword? 22) What are various access specifiers present in Fava? 23) Define package in Java? 24) Why are the packages used? 25) What is object oriented programming. 26) Why we use oops? 27) What are the main features of oops? 28) What is the difference blue class and object? 29) What is inheritance.	(6)	19st out the control statement in Java?
20) What are Java keyword? 21) What are Java keyword? 22) What are various access specificos present in Java? 23) Define package in Java? 24) Why are the packages used? 25) What is object Oriented programming. 26) Why we use oops? 27) What are the main features of cops? 28) What is the difference blw class and object? 29) What is inheritance.	19)	What is the difference blutta and at + increment operator?
21) What are Java koyword? 22) What are various access specifiers present in Java? 23) Define package in Java? 24) Why are the packages used? 25) What is object Oriented programming. 26) Why we use cops? 27) What are the main features of cops? 28) What is the difference blw class and object? 29) What is inheritance.	20)	What is a termory operator?
D) What are various access specificos present in dava? 23) Define parkage in Java? 24) Why are the parkages used? 25) What is object Driented programming. 26) Why we use object? 27) What are the main features of cops? 28) What is the difference blw class and object? 29) What is inheritance.	21)	What are Java koyword?
23) Define parkage in Java? 24) Why are the parkages used? 25) What is object Driented programming. 26) Why we use oops? 27) What are the main features of cops? 28) what is the difference blu class and object? 29) What is inheritance.	2)	what are various access specifiers present in Java?
24) Why one the packages used? 25) What is object Oriented programming. 26) Why we use oops? 27) What are the main features of cops? 28) What is the difference blu class and object? 29) What is inheritance.	23)	Define parkage in Java?
25) What is object Oriented programming. 26) Why we use oops? 27) What are the main features of oops? 28) what is the difference blu class and object? 29) What is inheritance.		
26) What are the main features of cops? 27) what is the difference blu class and object? 29) What is inheritance.		
27) What are the male features of oops? 28) what & the difference blu class and object? 29) What a inheritance		
29) what is the difference blu class and object?		
29) What is inheritance.		
/ NAM O SINGULARIA	29	hllest : inhonitance
(dusted) 31) What is the difference the mystelle and multilevel Taken	(chested) 2)	what is the dillounce the multiple and multiple Taken
32) What a Hierarchical Inheritance	22	What a Hierarche cal Inheritance
33) What a Super class.	X X	
34) What & Subclass		
on the discontinue of the contraction of the contra	- "	, ist a superior

35) What are the advantages of Inheritance in Java ? 36) What is stingle Inheritance and multileve Inheritance? 37) why mystiple inheritance is not supported in Java; 38) How does multiple inheritance is not son implemented? 39) What a Encapsulation in Java? why is it called data hoding . 40) what is the advantage of encapsulation 41) How to achieve encapsulation in Java? 42) what is abstraction in Java? 43) How to achieve or implement abstraction in Jours? 44) What is abstract class in java How to define it. 45) what is abstract method in java? 46) What is a conviete method in java! when to use abstract method in java? what is an interface in Java? why do we use of interpace in java Difference blu class and interface in java 50) what is Thread in java what are the benigits of using multithreading? what we the two ways to implement thread is javas What is the difference of thread and process what are the wait () and Bleep () method? what is start () and run() method of thread days what is purpose of the foin () method? what is the synchronization process & why use it? what is the difference byw exception and ever in jour. why do we need exception handling in java 61) How can you handle exception in Java. 62) Name the difference types of exceptions in java. 63) What is the collection frame work in java. 64) what are the main difference blu avoidy and Collection. 65) Explain various interfaces voed in collection frame work. 65) what is the difference blu Armaglist and water. 68) what is the difference byw Horator and Listitocation

69) what a the afficience blw . L'st una ver 70) What is the difference blw Hashset and Treeset? 71) what is the difference blu set and Map 72) What a the difference blw Hashset and Hashmap. 73) What is the difference blw Hashmap and Hashtable 74) What is the difference blow collection and collections. 76) what is the difference you comparable and comparator what is the deposition advantage of the generic collection 77) What a java 8 78) what a Lambda Expression and why we use them 79) What is functional Interpace How are functional Interface and Lambda Expression related 81) What a optional class? what are the default methods 83) How can ouate a function Interpau. 84) what are the core API classes for date and time 85) What a the easiest way to point the coverent doure and time using the new APIS 86) what are collectors in Java 8? what is the diffuence. How default - Static method un functional interface. 88) Relation blw lambda and functional Intorpace what is the difference b/w collection API and API. Struam
